

CALL FOR PROPOSALS
12.01.2021 – 12.04.2021

Foundation for the Development of the Education System

acting as the Operator of the Education Programme

is launching a Call for Proposals by means of a competition

The **Education Programme** has been established as a result of an intergovernmental agreement on the implementation of the European Economic Area Financial Mechanism for the years 2014-2021. The objective of the Programme is to reduce economic and social disparities in the European Economic Area and to strengthen bilateral relations in the area of education between Poland and Donor States (Iceland, Liechtenstein and Norway).

Priority areas:

- inclusive education,
- governance in the education sector,
- development of quality culture in the education sector, including the development of internal quality assurance systems,
- development and promotion of the VET sector, including dual education system and cooperation between vocational education and training institutions and employers,
- development of career guidance,
- child welfare education.

The Call is open to proposals submitted under the following four components:

- a) Component 1. Professional Development of Staff;
- b) Component 2. Mobility in Higher Education;
- c) Component 3. Institutional cooperation for the improvement of quality and relevance of Vocational Education and Training (VET) and vocational continuing education;
- d) Component 4. Institutional cooperation for enhancement of quality and relevance of education at all levels and forms (excluding VET and vocational continuing education).

PLEASE NOTE THAT

The applicant may submit one application for each component.

In the case of submission of several applications under the same component by one institution, the last of the submitted applications calculated according to the order of applications is assessed.

I. GENERAL INFORMATION

1. Total grant amount available within the call

Total amount available to be awarded to project promoters (EEA Grants 2014-2021 and national contribution) through the call for proposals amounts to:

EUR 14 381 096

Component 1:	EUR 822 740
Component 2:	EUR 1 371 178
Component 3:	EUR 6 513 589
Component 4:	EUR 5 673 589

2. Grant rate

The grants awarded to projects under the Programme cover up to 100% of total eligible costs of an individual project. The grant is awarded in EUR.

In the case of projects where project promoters are NGOs, as defined in Article 1.6 of the Regulation, the grant can cover up to 90% of total eligible project costs.

Applicants who are entrepreneurs will be awarded grants in accordance with *de minimis* aid with applying principles set out in the European Commission's Regulation (EU) No. 1407/2013.

3. Eligible applicants

Detailed catalogue of eligible applicants differs depending on the Component.

Eligibility of the applicants will be verified on the basis of registration documents or other documents confirming the scope of activities of the applicant.

4. Eligible project partners

- Any legal entity established in the Donor States or in Poland. In justified cases, where it is not possible to involve partners from Donor States, partners from other Beneficiary States may be invited, e.g. to carry out institutional cooperation projects in order to transfer innovative results.
- Vocational Education and Training institutions from Switzerland which hold a special cooperation agreement with Liechtenstein.
- Swiss universities, in respect to students and staff of Liechtensteiner nationality.

5. EUR exchange rate to be applied

Project budget is made up of costs expressed in euro:

- standard scales of unit costs, in accordance with Annex to the Guide for Applicants,
- actual costs.

The project budget includes the costs of project promoter and project partners, including entities from Donor States.

The applicant should estimate actual costs in EUR. For the purposes of the application, converting PLN amounts into EUR necessitates using the monthly accounting exchange rate of the European Commission in the month during which the call for proposals was launched, that is:

EUR 1= PLN

Information about the accounting exchange rate is regularly posted by the European Commission at: http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/inforeuro_en.cfm

6. Selection procedures

Formal assessment

It aims at verifying if all proposals comply with formal requirements. Formal assessment will result in drawing up a list of proposals meeting formal requirements, which will then be subject to quality assessment. A list of proposals rejected for non-compliance with formal requirements will also be drawn up.

Quality assessment

All proposals which have passed formal assessment will be subject to quality assessment in accordance with quality criteria set out in quality checklist.

Quality assessment will be carried out by independent external experts. It means that each project will be evaluated by two experts who are independent of Programme Operator, except for Mobility Projects in Higher Education (Component 2) submitted by universities holding Erasmus Charters for Higher Education, for which no quality assessment will be conducted.

On the basis of assessment conducted by external experts, Programme Operator will prepare a ranking list of projects recommended to be awarded grants, reserve projects and rejected projects.

Under Components 1 and 2, Programme Operator will submit the list for approval to Donor Programme Partners (DPPs) within the Cooperation Committee, and under Components 3 and 4 to the Selection Committee. The final decision on awarding grants to those projects will be adopted by the Management Board of FRSE in the form of a resolution. Grants will be awarded to projects scoring a minimum of 60% of all points to be awarded until the amount allocated to the call for proposals is exhausted.

After assessment procedure is completed, Programme Operator will publish a ranking list of projects recommended for co-financing, reserve projects and rejected projects.

7. Information on remedies available to the Applicant

Applicants can appeal against a decision on rejecting their application at the stage of formal assessment. The appeal procedure consists of two instances. The first instance is Programme Operator and the second is the National Focal Point (NFP). The decision of the second instance cannot be appealed against.

The result of quality assessment cannot be appealed against.

8. Date, place and method of submitting applications

The call for proposals takes place **from 12.01.2021 to 12.04.2021 until 16.00 pm.**

The proposal is to be submitted in 2 languages: Polish and English.

Proposals must be submitted **online** via a system available at: **online.frse.org.pl**. Once the call is closed, it will not be possible to submit an application form via the system.

Component 2.

Mobility Projects in Higher Education

1. Eligible activities

Mobility of students - students of first, second and third cycle programmes:

- outgoing mobilities of Polish students to Donor States and incoming mobilities of students from Donor States for study periods lasting from 3 to 12 months within an academic year,
- outgoing mobilities of Polish students to Donor States and incoming mobilities of students from Donor States for internships at partner institutions lasting from 2 to 12 months within an academic year.

HEI staff mobility:

- teaching assignment-based mobilities of academic teachers between Poland and the Donor States for a period of between one day and six weeks, a minimum of eight hours of teaching at the partner institution must be provided during one week of mobility,
- HEI staff mobility between Poland and Donor States for job shadowing, participation in seminars, training, workshops and conferences aimed at improving skills and expanding knowledge in a given field for a period of between one day and six weeks,
- mobilities of representatives (employees) of companies from Poland and Donor States for teaching assignments in a host institution for a period of between one day and six weeks.

Mobilities of HEI students and staff are carried out based on the principles of the Erasmus+ Programme for Higher Education.

PLEASE NOTE THAT:

Each applicant should submit one proposal for all activities it envisages under Mobility Projects in Higher Education.

2. Eligible applicants

Polish higher education institutions holding an Erasmus Charter for Higher Education (ECHE)

3. Eligible partners

Projects implemented under this Component can be implemented in partnership, in accordance with the catalogue of eligible partners specified in point I.4 of the Call for Proposals. A partnership should be composed of at least 2 entities. An applicant submits a proposal on behalf of all partners involved in the project. The proposal must be accompanied by a letter of intent signed by all partners.

In the case of mobility between higher education institutions, both the sending and the host institution must have a valid Erasmus Charter for Higher Education (ECHE).

4. Duration of the project

Eligible duration of a single mobility project in higher education will be up to 18 months, from April 1, 2022 until September 30, 2023.

5. Project grant

minimum grant amount **EUR 20 000,00**

maximum grant amount **EUR 200 000,00**

Grants are awarded to Applicants who meet formal requirements up to the amount of funds available through the call for proposals. If funds available through the call for proposals are insufficient to cover the total requested grant amount, Programme Operator will recalculate the amount of co-financing for each eligible project in accordance with the following coefficient:

$$\frac{\text{amount of funds available within the call for proposals} - \text{total costs of participants with special needs}}{\text{total requested grant amount}}$$

and will add the amount resulting from this budget heading to the recalculated grant amount for each project featuring costs for participants with special needs.

If the result obtained for a given project is lower than the minimum grant amount, the value of the project will be increased to EUR 20,000.

If the updated value of projects also exceeds the available allocation, a ranking list of projects will be drawn up on the basis of cost effectiveness with using the following calculation for each project:

$$\frac{\text{number of students} + 0,1894 * \text{number of staff members}}{\text{requested grant amount} - \text{costs of participants with special needs}} * 1000$$

The result will be rounded off to four decimal places. The higher the result, the higher a given project will be placed on the ranking list. If the result for two or more projects is equal, the ranking on the list will be determined by the order, in which the applications were submitted. The updated grants are awarded to projects until the allocation is exhausted, starting from the one with the highest result for the above calculation.

Applicants will be requested to submit the declaration within 14 days concerning will to implement the project with reduced amount of funding. In case of the confirmation, applicants will be asked to adjust the application forms to the reduced amount. If at least one applicant withdraws the application, above calculations will be properly updated – withdrawn applications won't be counted.

While adjusting the application form, following rules apply:

- rules from the call for proposals;
- concerning maximum funding;
- overall sum of participants for each kind of mobility in each direction cannot be higher than in the first application form;
- there should be kept the proportion while reducing the amount of participants, using the following calculation – separately for mobilities from Poland to Donor States and mobilities from Donor States to Poland:

$$\frac{\text{updated amount of students (total for internships and studies)}}{\text{previous amount of students (total for internships and studies)}} + 0,1 \geq \frac{\text{updated amount of staff}}{\text{previous amount of staff}}$$

And for projects, in which there is at least one mobility from Donor States to Poland, additionally:

$$\frac{\text{updated amount of participants from Donor States}}{\text{previous amount of participants from Donor States}} + 0,2 \geq \frac{\text{updated amount of participants from Poland}}{\text{previous amount of participants from Poland}}$$

In duly justified cases, the PO may approve update of participants' update that don't fall within above mentioned proportions.

If there are savings thanks to the update of application forms, the remaining amount will be distributed among the projects in descending order on the ranking list up to the amount of the first submitted application form or end of amount resulting from savings. If the applicant that has been granted additional funds doesn't update the application form accordingly within 7 days, the financial resources will be offered to the next projects on the ranking list, in line with the above mentioned principles.

If there are savings after implementation of the procedure, the remaining amount will be transferred to 3rd call for proposals in the Education Programme.

When approving the final list of projects to be awarded grants, The Management Board of FRSE, will be guided by the rules defined for the application of the above algorithm.

6. Eligible costs

Included in standard scales of unit costs:

- travel,
- individual support for students,
- individual support for staff members,
- organisational support - Sending Institution,
- organisational support - Host Institution,
- linguistic preparation

Actual costs:

- support for project participants with special needs - additional costs linked to the participation of persons with special needs.
Costs related to accompanying persons - standard scales of unit costs.

8. Payment system and reporting

⁸ As above.

Project grants are paid in the form of advance payments and final balance payment. Up to 80% of the project grant can be paid as advance payments. Depending on the duration of the project, advance payments can be made in one or two tranches.

The first tranche of advance payment will be paid after signing of the project contract.

Subsequent advance payment tranches, if any, will be transferred to the Beneficiary after the approval of the project's Interim Report(s) and after the spending of at least 70% of the previous advance payment tranche. The transfer of funds will take place after approval of the Interim Report.

After the approval of the Final Report, the final balance payment (up to 20% of the total eligible costs), if applicable, will be paid.

In the case of non-public institutions which have been awarded a grant exceeding EUR 60 000, Programme Operator will require a guarantee to secure proper implementation of the project. Such a guarantee to secure proper implementation of the project will include e.g.: several tranches of advance payments and a blank promissory note with a promissory note declaration.

Interim Reports should be submitted within 15 working days after each six months of project implementation.

The Final Report should be submitted within 30 working days after the completion of the project.
